A gear or cogwheel is a rotating machine part having cut teeth, or in the case of a cogwheel, inserted teeth (called cogs), which mesh with another toothed part to transmit torque. Geared devices can change the speed, torque, and direction of a power source. Gears almost always produce a change in torque, creating a mechanical advantage, through their gear ratio, and thus may be considered a ...

The Eleventh Edition of Robert's Rules of Order Newly Revised. The book on parliamentary procedure for parliamentarians and novice club presidents alike, Robert's Rules of Order Newly Revised is this country's recognized guide to smooth, orderly, and fairly conducted meetings. It is the only book to have been maintained since 1876 under the continuing program established by General Henry M ...

A Word about "Pickleball" Over the past five decades, as pickleball has grown, it has been shown in print with a variety of spellings. Pickleball is the general name of a sport, like tennis, basketball, hockey, etc.

What is pickleball: Brief History - USAPA Pickleball

A business proposal is a written offer from a seller to a prospective buyer. Business proposals are often a key step in the complex sales process—i.e., whenever a buyer considers more than price in a purchase.. A proposal puts the buyer's requirements in a context that favors the seller's products and services, and educates the buyer about the capabilities of the seller in satisfying their ...

Proposal (business) - Wikipedia

Abstract. Studies of coping in applied settings often confront the need to minimize time demands on participants. The problem of participant response burden is exacerbated further by the fact that these studies typically are designed to test multiple hypotheses with the same sample, a strategy that entails the use of many time-consuming measures.

You want to measure coping but your protocol's™ too long

The meaning of work literature is the product of a long tradition of rich inquiry spanning many disciplines. Yet, the field lacks overarching structures that would facilitate greater integration, consistency, and understanding of this body of research.

On the meaning of work: A theoretical integration and

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
