

caesarean birth in britain pdf

Caesarean section, also known as C-section, or caesarean delivery, is the use of surgery to deliver babies. A caesarean section is often necessary when a vaginal delivery would put the baby or mother at risk. This may include obstructed labor, twin pregnancy, high blood pressure in the mother, breech birth, or problems with the placenta or umbilical cord.

A breech birth is when a baby is born bottom first instead of head first. Around 3-5% of pregnant women at term (37â€“40 weeks pregnant) have a breech baby. Most babies in the breech position are born by a caesarean section because it is seen as safer than being born vaginally. Doctors and midwives in the developing world have thus lost many of the skills required to safely assist women giving ...

The world could possibly reduce consumption down to a very basic level, but if population keeps growing, eventually that will not be enough. Even today many are living on a sub-sustainable level, due in part to an uneven distribution of resources, but also because, in many regions, population has outgrown essential resources for that region.
