Oil painting is the process of painting with pigments with a medium of drying oil as the binder. Commonly used drying oils include linseed oil, poppy seed oil, walnut oil, and safflower oil. The choice of oil imparts a range of properties to the oil paint, such as the amount of yellowing or drying time. Certain differences, depending on the oil, are also visible in the sheen of the paints.

As of September 1, 2017, Oncourse is fully retired, and no access is available. In compliance with university data retention policies, Oncourse gradebook data will be preserved through the end of August 2021, five years from the end of the last term during which courses were taught in Oncourse.

### **About the Oncourse retirement**

The Lansdowne portrait is an iconic life-size portrait of George Washington painted by Gilbert Stuart in 1796. It depicts a 64-year-old Washington in his last year as President of the United States. Stuart painted the Lansdowne portrait, three copies of it, and five portraits that were closely related to it.
